

CIGRE COPYRIGHT FORM

The procedures and requirements for the publication of Papers or articles submitted to CIGRE are described below. The agreement assignment overleaf must be completed and returned to CIGRE.

1. It is the policy of CIGRE to own the copyright to the technical contributions it publishes on behalf of the interests of CIGRE, their authors, and to facilitate the appropriate reuse of this material by others.

CIGRE distributes its technical publications throughout the world. It also abstracts and may translate its publications and articles contained therein, for inclusion in various compendiums and similar publications, etc. When an article is submitted for publication to CIGRE, CIGRE understands that its acceptance of the article implies that CIGRE has the rights to do all of the things it normally does with such an article.

The following formal CIGRE policy applies to all material submitted to CIGRE.

CIGRE must of necessity assume that material presented at its meetings (Sessions or Symposia) or submitted to its publications (Technical Brochures, Electra) is properly available for general dissemination to the audiences these activities are organized to serve. It is the responsibility of the authors, not CIGRE, whether disclosure of their material requires the prior consent of other parties, and, if so, obtain it.

2. When the author(s) come(s) from a country where different rules are applied for the copyright, then he/she/they should inform CIGRE of the provisions which apply in his/their own country.

3. If the copyright in the work is owned by the author(s), the Agreement should be signed and dated by the author(s) at space A.

4. The author(s) assert(s) to CIGRE that he/she/they has/have moral right to be identified as the author(s).

5. If the copyright in the work is owned by the organisation which has commissioned the work on which the paper is based or which employs the author(s), an authorized representative of this organisation should sign and date the Agreement at space B.

6. The organisation in assigning the copyright in the paper gives no warranty expressed or implied that the paper is free from defamatory matter, nor

that the paper does not infringe the rights of any third party.

7. The organisation warrants that :

- a) it has advised the author(s) of his/her/their responsibilities to avoid defamation or infringement of third party rights, and
- b) it will notify CIGRE of any adverse claim that comes to its knowledge prior to publication.

8. Nothing in the Agreement shall in anyway affect any agreement which the organisation may have with any of its employees or others performing work for or on its behalf.

9. The author(s) and/or the organisations for whom the work was performed shall be entitled :

- a) to retain all proprietary rights other than the copyright, such as patent rights ;
- b) to reproduce figures and extracts from the papers with proper acknowledgement of CIGRE
- c) to reuse all or portions of the paper in other works with proper acknowledgement of CIGRE
- d) without payment to make and have copies made of the published paper for his/her/their/its own purpose's but not for sale, provided that no reference is made to CIGRE in any manner which implies endorsement by CIGRE of any product or services the organisation manufactures or in which it deals.

10. Reprinting and abstracting will be permitted only with authorization of CIGRE and with proper acknowledgement of the owner.

Ownership in a CIGRE publication, whether in paper form or on electronic support only infers right of use for personal purposes. Are prohibited, except if explicitly agreed by CIGRE, total or partial reproduction of the publication for use other than personal and transfer to a third party; hence circulation on any intranet or other company network is forbidden.

11. If CIGRE declines to publish the paper, the copyright in the paper will remain with the original copyright owner(s). If the paper is accepted for publication but is not published within a reasonable time after acceptance, the copyright owner(s) will have the right to require CIGRE to reassign the copyright in the paper to the original owner(s).
